The Multi Pro® 1750 solution

Introducing, "The new Toro Multi Pro® 1750, engineered to your specifications". Toro spent great lengths of time to adapt other intuitive vehicles to form this machine as a, "tool of choice for Turf Managers". This is due to it's many features and benefits, which include the use of less chemicals and ensuring greater efficacy. This echoes Technigro's, "cleaner, greener, safer" moto and makes the Toro Multi Pro® 1750 the perfect spray solution for the best practice turf manager. As proud partners with Toro Australia, we are very pleased to have taken delivery of the latest in turf spraying technology.

Key features

- > Unsurpassed spray accuracy and precision with inbuilt on-board computer
- > 6 diaphragm pump to achieve high spray volumes and greater agitation
- > "Quick Find" console makes operation easy with everything at your finger tips
- > 5.6 meter shielded boom
- > Speeds up to 18km/hr
- > Triple turret nozzle mount to change nozzles between different products easily
- > 662 L tank capacity
- > Specialist turf tyres

The benefits of these features directly impact Technigro customers and are outlined opposite.

Benefits to Technigro Customers

- ▷ No damage to turf surface from tyres
- ▷ Outstanding maneuverability making all areas easy to access
- ▷ No track marks or holes in turf as the Toro has an even weight distribution.
- ▷ Prevention of errors with on board computer
- ▷ Variable application rates and speeds means a large array of products can be used
- ▷ Low noise
- ▷ Faster application means less time disrupting the asset
- ▷ Safety Beacons for increased visibility of operators protecting the public and operators
- ▷ Fully shrouded to eliminate spray drift getting a targeted treatment and protecting the environment
- ▷ Suitable for all turf surfaces
- ▷ Ensures uniform coverage
