

SAFETY, QUALITY, ENVIRONMENTAL & RISK POLICY

As a major Australian physical services company, Citywide delivers integrated civil infrastructure, open space and environmental services that enhance community assets and quality of life.

We work closely with our government and private sector customers to design, build and maintain high performance natural and civil assets. Our diverse capabilities enable us to respond safely and effectively to a range of challenges.

Vision:

Powered by people, guided by our values, we will be the leading Australian provider in safely maintaining and enhancing the value of community assets.

Values:

People, relationships, innovation, service performance and environment.

Wherever we operate we will proactively:

- Aim to achieve our ultimate goal of zero harm to people and the environment.
- Develop and review measureable objectives and targets that promote continuous improvement of our health and safety, quality and environment performance.
- Prevent pollution and minimise any adverse effects our operations may have on the environment, especially in relation to emissions to air; discharges to stormwater; soil and ground contamination; discharge to trade waste; disposal/transport of waste; inefficient use of resources; protection of flora and fauna; noise emissions and protection of cultural heritage.
- Promote a work culture that achieves corporate targets through safe behaviour, environmental awareness and use of quality systems.
- Aim to eliminate work-related illness and injury resulting from our operations.
- Comply with relevant legislation, regulations and other internal and external documents or subscriptions which are relevant to the Company.
- Ensure safety, quality, environment and risk roles and responsibilities are documented and that they are clearly communicated, understood and accepted.
- Ensure personnel and contractors have the necessary information, training and supervision to meet regulatory and corporate requirements.
- Ensure this policy is actively communicated and made available to personnel, relevant stakeholders and interested parties (including the public).
- Ensure this policy is periodically reviewed so that it remains relevant and appropriate.
- We will demonstrate these commitments by meeting the requirements of AS4801 (Safety), ISO9001 (Quality), ISO14001 (Environmental) and ISO31000 (Risk).
